Work Experience

User Experience (UX) Intern – Home Credit Philippines   **February 2025 – June 2025**

- Edit and implement images, banners, and other designs needed for the corporate website, adhering to established design systems and brand guidelines.
- Manage and create various creative requests (assets, designs) from multiple internal teams.
- Optimize website pages using tools such as Magnolia CMS to improve performance and user experience.
- Conduct audits and generate reports on company websites, focusing on design quality, functionality, and alignment with design principles.

Full-time Builder (HTF Project Administrative Support Specialist) – HumanDAO   **August 2022 – April 2025**

- Coordinated onboarding processes for new assistants, including application reviews, role assignments, and orientation support across multiple platforms.
- Managed daily task distribution for decentralized assistants, ensuring timely updates and follow-ups on research, social media, and internal assignments.
- Provided multi-channel support for assistant inquiries via Discord tickets, email, and DMs; maintained accurate documentation and tracking sheets (e.g., Trello, Google Sheets).
- Assisted in promoting Human Task Force (HTF) programs and HDAO initiatives through targeted social media outreach and Facebook advertising efforts.

Developer Projects

OSAMS: Undergraduate Degree Capstone Project | LINK

- Led the development of an Asset Management System using Agile methodologies, implementing features for asset tracking, event coordination, and access control, while enhancing efficiency and user experience through integrations with Twilio (SMS/email) and Google API (user authentication).

Personal Portfolio Website | LINK

- Designed and developed a responsive, user-friendly portfolio website to showcase personal projects, technical skills, and professional experience. Built using MERN, with attention to performance, accessibility, and modern design principles.

Alejandrino: SHS Capstone Project | LINK

- Developed an educational game using the Prototyping model, overseeing both development and documentation to deliver an engaging, learning-centered gaming experience.

Education

Undergraduate – B.S. Information Technology   **August 2021 – June 2025**
University of Santo Tomas – College of Information and Computing Sciences

- Dean's Lister: Recognized for academic excellence in various semesters.

Senior High School – TECHVOC-ICT   **August 2019 – May 2021**
Colegio San Agustin – Binan, Laguna

- Graduated Top 2 and Highest Honors in the TECHVOC Strand

University Extracurricular & Leadership Experience

President – UST ICS Student Council   **May 2024 – May 2025**

- Coordinates and engages with the student body and college administration, with developing and implementing projects and activities focused on student and career welfare and improvement.
- Oversees and take full responsibility for all Student Council activities, ensuring alignment with organizational goals and objectives.
